Wednesday Addams, the ultimate princess of darkness, has grown up and fallen in love with a sweet, smart young man from a respectable family whom her parents have never met. She confides in her father and begs him not to tell her mother. Now, Gomez Addams must do something he's never done before— keep a secret from his beloved wife, Morticia. Everything will change for the whole family on the fateful night they host a dinner for Wednesday's "normal" boyfriend and his parents.

The Plastics have deemed Broadway Junior worthy of their presence in *Mean Girls JR!* This "fetch" musical from book writer Tina Fey (*30 Rock*), lyricist Nell Benjamin (*Legally Blonde*) and composer Jeff Richmond (*Unbreakable Kimmy Schmidt*) is packed with keen wit, an undeniably catchy score, and a sincere message for everyone.

Cady Heron may have grown up on an African savanna, but nothing prepared her for the wild and vicious ways of her strange new home: suburban Illinois. How will this naïve newbie rise to the top of the popularity pecking order? By taking on The Plastics, a trio of lionized frenemies led by the charming but ruthless Regina George. Cady and her friends devise a "Revenge Party" to end Regina's reign with Cady going undercover as an aspiring Plastic. When the lines between the real Cady and her Plastic self get blurred, she must find her way back to herself and her true friends.
